An aerial photograph of a city street with a grid pattern. A person is walking in the distance, holding a bright yellow umbrella. The street is flanked by concrete pillars or barriers.

WEB & USER EXPERIENCE (UX) SERVICES

4 seconds - that's how much time you have to make a lasting impression on your visitors. With this in mind, we deliver cleanly designed and easy-to-use websites, that focus on achieving your business goals, by delivering bespoke, custom solutions, through the utilisation and implementation of best-of-breed technologies and practices, tailored to fit your specific requirements.

DIGITAL CAPABILITIES

FRONT-END DEVELOPMENT

Our front-end development stack is built using the Bootstrap framework allowing mobile responsiveness out the box.

E-COMMERCE

Depending on the project type, we work on a wide variety of e-commerce platforms. For a bespoke, stand-alone platform, we would use either Magento or Shopify (size of project dependent).

SOURCE CONTROL

To ensure that every project is managed and backed up correctly, we make use of secure online git repositories. These are online storage blocks that allow easy collaboration between our developers and for working with external partners.

ARCHITECTURE & BACK-END

We believe in using open-source frameworks for development - ensuring maximum scalability and support. Depending on the size and nature of the project we would choose between a Content Management System (CMS) - usually Wordpress, or the full MVC framework Laravel for bespoke applications.

Bitcoin \$38,182.01 -0.40%

Ethereum \$38,182.01 +0.75%

XRP \$38,182.01 -3.46%

Solana \$38,182.01 -3.46%

Terra \$38,182.01 +0.75%

Cardano \$38,182.01 -3.46%
